

PLUG & PLAY PV-HELIOS

Solar Tracker Controller

Control your PV solar tracker with this **easy-installation** system

You don't need anything else!

Connect it and get ready to generate!

Improve your solar panel efficiency more than 35%

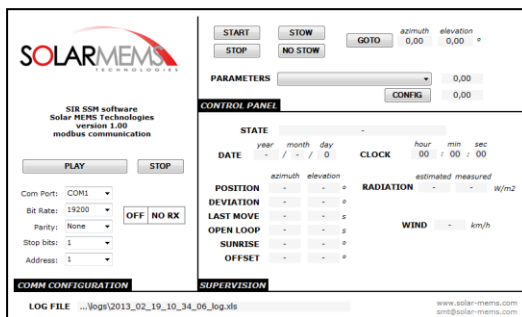

For solar trackers with PV panels

SOLUTIONS OF HIGH TECHNOLOGY

Technical features

Tracker protections	Mechanical limit switches Wind protection
Internal protections	Industrial cabinet Overcurrent Overvoltage Short-circuit
Tracking	Sun sensor for accurate tracking DNI measurement Auto-learning system Night and Defense protocols Highly configurable Control panel in the cabinet
Electrical and communications	For AC or brushed DC motors MODBUS RTU for remote control
Devices included	Sensor for sun detection and DNI Limit switches It doesn't need encoders or similar

SOFTWARE INCLUDED FOR FREE:
REMOTE CONTROL
SUPERVISION
AND LOGS
